Parent/Legal Guardian Authorization and Release Form for Student Portfolio

Your child is participating in the Spyder Lab program and Spyder Lab would like to start building their employment portfolio. Your student's portfolio will consist of the projects they have worked on, the soft skills they have gained and their equipment certification.

Their student portfolio is password secure and will only be viewable by the Spyder Lab employees and school administrators. Once the student graduates, their portfolio will be given to them. The student can then use their portfolio as a resume so they can demonstrate their career readiness to the future employer and/or include it in their college application.
